A90 Toyota Supra Resonator Delete – Install Manual

CONTENTS

A90 Toyota Supra Resonator Delete – Install Manual

1. **Introduction**

   1.1. **Overview:** Detailed instructions on installing the resonator delete for the Toyota Supra.

   1.2. **Difficulty:** Beginner

   1.3. **Time Required:** 0.25 - 0.5 hour

   1.4. **Tools Needed:**
      1.4.1. Flat Head Screwdriver
   1.4.2. T20 Torx

   1.5. **Resonator Delete**
      1.5.1. (1) Resonator Delete

2. **Resonator Delete Installation**

   2.1. Verus is not responsible for damage to you or your vehicle by following this manual and/or installing Verus Engineering products

   2.2. We begin by popping the hood.

   2.3. Loosen hose clamp with flat head screw driver. This is shown below with a red arrow.

2.7. Utilizing the flat head screwdriver, remove the factory resonator from the air box. Simply pry up and rearward.

2.8. The factory resonator should be off at this point.

2.9. To install our resonator delete, slip the unit on with the factory o ring in place. You can use a bit of silicone grease to aid in install if you would like.

2.10. Reinstall air box with the (4) clips.

2.11. Tighten the clamp on the air box.
